

CARRIAGE HOUSE[®]

Luxury
Roofing Shingles

Carriage House, shown in Stonegate Gray

CertainTeed
SAINT-GOBAIN

Slated for Perfection

From the sweep of a Victorian frame to the symmetry of a Colonial gable, the preservation of timeless architecture accented by steeply pitched roofs is a hallmark of the Carriage House® luxury shingle.

Carriage House has been painstakingly designed to evoke the unique hand-crafted look that is at home with our heritage. And the level of protection provided by Carriage House's super heavyweight construction makes for a perfect pitch.

ARCHITECTURAL VISION

Equal measures of craftsmanship and architectural creativity are at play in this shingle. With cut-away corners and wide, dark shadow lines, Carriage House creates a one-of-a-kind look of scalloped-edge natural slate...the perfect roofline for your home.

STREAKFIGHTER® PROTECTION

The ultimate in stain protection, CertainTeed's StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter's granular blend includes naturally algae-resistant copper to combat the ugly black streaking caused by algae and help your roof maintain its beauty for years to come.

SUPER CONSTRUCTION

An ingenious construction that combines two full-sized base shingles, four layers of protection, and an oversized 8" exposure. Made of the industry's most durable roofing materials, you'll have a roof that really endures the elements.

The super-heavyweight that offers premium performance and the pride and prestige of scalloped slate is a perfect solution for a steeply-pitched roof. Carriage House luxury shingles. A most unique shingle for a one-of-a-kind home.

NOTE: Due to limitations of printing reproduction, CertainTeed can not guarantee the identical match of the actual product color to the graphic representations throughout this publication.

Add a Little Accent to Your Roof

For a stylish finishing touch to cap hips and ridges, use Shangle Ridge® accessory—available in colors to match your Carriage House shingles.

Color Companion Products™ for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in eight colors that complement some of the most popular CertainTeed shingles.

The Ultimate in Stain Protection

STREAKFighter® Algae-Resistant
Stain Technology

Those streaks you see on other roofs in your neighborhood? That's algae, and it's a common eyesore on roofing throughout North America. CertainTeed's StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter's granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

Integrity Roof System™

A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

It all starts with CertainTeed's broad line of shingles, featuring brilliant color blends, dramatic styles and shadow lines, and the strongest warranties in the industry. The right shingle can mean the difference between an average, everyday look or a beautiful roof that's the talk of the neighborhood.

Shingles are just the beginning - to keep your new roof performing and looking great for years to come it takes a complete CertainTeed Integrity Roof System approach.

1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Starter Shingles

Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Hip & Ridge Caps

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.

6. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
