

TECHNICAL DATA SHEET

MOUNTAIN RIDGE® Shingles (Hip and Ridge Accessory)

PRODUCT DESCRIPTION

Mountain Ridge® is a self-sealing shingle of three-piece construction and thickness of five layers that combines durability with flexibility and good looks, for use in capping hips, ridges, or rakes of shingled roofs. Available in two sizes: 8" W x 12-1/4" L, or 10" W x 12-1/4" L, both with 8" exposure.

Color: Please refer to the product brochure or CertainTeed website for the colors available in your region. Mountain Ridge shingles are designed to blend with all of CertainTeed Landmark Series and Presidential Series shingles. Mountain Ridge accessory shingles will also blend closely with several competitive colors. Please review CertainTeed's Mountain Ridge Color Chart for specific recommendations. 10" Mountain Ridge is available in Algae Resistant (AR) colors only.

Limitations: Use on hips, ridges, and rakes of roofs only after application of primary roofing shingles to both intersecting roof decks. These shingles are designed to be used with CertainTeed's shingles that reference the use of CertainTeed's Mountain Ridge Shingles or High Profile Shingles. Use Mountain Ridge product colors that complement the shingle colors applied to the main roof. For rake application, face-nailing with two aluminum trim or paneling nails of complementary color is required.

Product Composition: Mountain Ridge shingles are composed of a fiber glass mat base. Ceramic coated mineral granules are tightly embedded in specially refined, water-resistant asphalt.

Applicable Standards:

ASTM D3018 Type I

ASTM D3462

ASTM E 108 Class A Fire Resistance

ASTM D 3161 Class F Wind Resistance

UL 790 Class A Fire Resistance

CSA Standard A123.5

ICC-ES ESR-1389 and ESR-3537

INSTALLATION

Detailed installation instructions including diagrams are supplied on each box of Mountain Ridge shingles.

AVAILABILITY AND COST

Availability: For the names of local distributors and dealers, please write Sales Support, 20 Moores Road, Malvern, PA 19355; or call (800) 233-8990.

Cost: Contact a local distributor or dealer for current price information.

MAINTENANCE

Mountain Ridge shingles do not require maintenance when installed according to manufacturer's application instructions. However, to protect the investment, any roof should be routinely inspected at least once a year. Older roofs should be looked at more frequently.

TECHNICAL SERVICE

Complete technical support and assistance is available through CertainTeed's Technical Service Department @ 1-800-345-1145, Territory Managers, and the fully staffed and equipped Research and Development facility in Malvern, PA.
